ENGINEERED PRODUCTS, DESIGNED
AND BUILT IN AUSTRALIA

ABOUT DAVCO™

Since 1984, DAVCO™ has been a leading innovator in the design and manufacturing of tender management solutions for the marine industry. Our rich heritage and passion for boating fuel our commitment to developing high-quality products that elevate your time on the water.

At DAVCO™, we understand the challenges boat owners face when managing tenders and PWCs. That's why we specialize in creating innovative solutions such as the products in our AquaSeries range.

Our team of dedicated engineers and designers is passionate about creating user-friendly and reliable products that exceed your expectations.

AQUAPLATFORMS™

EXPAND YOUR BOATING EXPERIENCE

Transform your deck space and create a luxurious oasis on the water with a DAVCO AquaPlatform™. This innovative hydraulic platform extends your deck with a safe and stable surface, perfect for swimming, sunbathing, relaxing, or easily boarding your tender or PWC.

AquaPlatforms™ are designed and manufactured in Australia, proudly supplied to both of Australia's largest boat builders. Your AquaPlatform™ can be designed specifically for your boat.

- **Expand Deck Space:** Create a more spacious and versatile entertaining area on your boat, perfect for relaxing, socializing, or sunbathing.
- **Enhance Comfort and Relaxation:** The teak surface and ample space provide a luxurious platform for lounging and enjoying the sun and water.
- **A Safe and Easy Platform for Swimming:** The stable platform offers a convenient and secure entry and exit point for swimmers of all ages.
- **Simplify Tender and PWC Access:** Easily board your tender or PWC directly from the platform, eliminating the need for climbing or awkward maneuvers.
- **Built to Last:** Constructed from 316 stainless steel for longevity and reliability.
- **A Luxurious Yachting Experience:** Elevate your boating experience with the added functionality, comfort, and sophistication that the AquaPlatform™ provides.

EFFORTLESS TENDER LAUNCHING & RETRIEVAL

Compact & Powerful Cranes for Boats 38ft & Above.

Struggling to launch and retrieve your tender or PWC can be a back-breaking chore. AquaCranes™ take the hassle out of tender management, allowing you to effortlessly lift and lower your watercraft with just the touch of a button.

Compact Design for Maximum Efficiency: DAVCO
AquaCranes™ are designed to be space-saving without compromising on power. They fit seamlessly onboard and are stowed low profile on the deck.

PRODUCT RANGE

AquaCranes™ are available in a range of sizes and configurations to suit your needs.

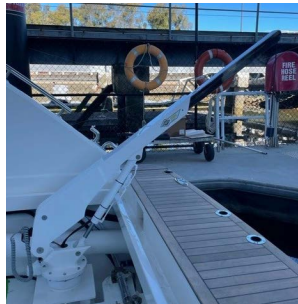

250KG CRANES

350KG CRANES

500KG CRANES

750KG CRANES

1000KG CRANES

Powerful Lifting Capacity: Don't let the compact size fool you. AquaCranes™ are available in a range of models with varying lifting capacities, ensuring you can find the perfect crane to handle your specific tender or PWC.

AquaCranes™ 250kg and 350kg are available as both Standard and Hydraulic Cranes. DAVCO Hydraulic Cranes are also available as 500kg, 750kg and 1000kg Cranes. The 500kg also has a Fixed Crane option.

HYDRAULIC CRANES

The Hydraulic Cranes delivers effortless tender management with a powerful lifting capacity and full 330° rotation. Operate it from anywhere on deck using the user-friendly remote control. This hydraulic system ensures smooth, precise movements for safe and efficient handling of your tender or PWC. Built with a specialized aluminum DAVCO slew drive and a robust stainless steel 316 luffing cylinder, the AquaCrane Hydraulics offers superior durability and extends even under full load for ultimate convenience.

SKU: ACH 250C | ACH 350C | ACH 500C | ACH 750C | ACH 1000C

STANDARD CRANES

The Standard Cranes delivers user-friendly tender management with a 250kg or 350kg lifting capacity. Its manual operation system grants you complete control while raising and lowering your tender or PWC. The DAVCO manual slew system ensures smooth horizontal movement, and the gas strut-assisted luffing system minimizes effort during vertical adjustments. An electric winch tackles the lifting task, while the manual pull-out extension offers additional reach when needed. A space-saving crane solution for effortless tender handling.

SKU: ACS 250C | ACS 350C

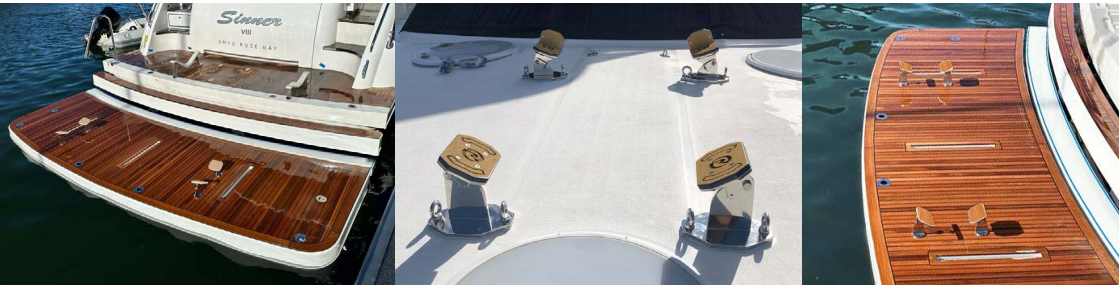

AQUACHOCKS™

REMOVABLE CHOCKS FOR YOUR TENDER OR PWC

Enjoy the stability of a secure cradle system with AquaChocks™. These removable and adjustable chocks keep your tender or PWC safe while offering the flexibility to be removed in seconds when not in use.

Manufactured using high quality 316 stainless steel, AquaChocks™ are built to last in the most toughest conditions.

Reclaim your deck space: Removable in seconds, leaving a flush surface and zero trip hazards.

AquaChocks™ are sold as an all-inclusive kit. There are two kit options:

FOREDECK KIT

Includes everything needed to install AquaChocks™ on a **swim platform**.

- 4 x AquaChocks™
- 4 x Mounting Bases
- 4 x Ratchet Straps
- 4 x Pad Eyes
- Storage case
- All parts required for installation

SKU: ACKP

AQUASTAIRS™

EFFORTLESS ACCESS TO YOUR SWIM PLATFORM

Elegant Design Meets Functionality

Climbing onto and off your swim platform can be a challenge, especially for children or older adults. AquaStairs™ eliminate the struggle, providing a safe and comfortable way to access your hydraulic swim platform.

Designed for tender safety: When stowed away, the AquaStairs™ fold compact under the swim platform for efficient motoring and to keep your tender or PWC safe from the trailing wake, especially in rough conditions.
